COMMENTS FROM THE TOWN MANAGER'S OFFICE

The highway crew has been working on several jobs this past week. The grader has been scraping and ditching the un-surfaced roads, getting them ready for winter. A lot of minor repair work has been done on the trucks getting them ready for inspection and for winter.

The winter sand stockpile will probably be put up next week. The town usually puts up 1200 yards of salt and sand and the job takes about a week.

Tax payments have come in much slower these last few weeks but are still ahead of last year's rates.

The town has requested the Central Maine Power Company to install new street lights at the junctions of Cross Street and Bridge Street, Church Street and Railroad Street, and Elm Street and Railroad Street. These lights will replace those taken down when the new bridge was started.

The Bethel PTA met Tuesday evening at the Crescent Park School with 77 in attendance. The sub-primary won the attendance banner.

progress on the addition is slower than expected. He doubted if it would be ready before Christmas. He also stated that there were no plans in the budget for an additional teacher for the sub-primary, so they will try out the present system for a while.

Charles Heino, program chairman, introduced Dexter Stowell, who reported on the recent study of the school committee on the question of the formation of a school district for Bethel and Newry. The committee has recommended that nothing be done at the present time. There is a proposed bill to be presented at the next session of the state legislature which would make such a plan more attractive to both school districts. They plan to take up the matter again in the future.

The November meeting will be held on the second Tuesday, November 13, because of the Thanksgiving holiday. The subject of that meeting will be "Merits of Fluoridation."

EXCITING! GO '63 CHEVY II

New 4-Door Station Wagon

SPUNKY NEW WAGONS THAT LEAD LONGER, HAPPIER LIVES

What a new kick you'll get out of going places in this one! And what a solvent feeling you'll get as the savings on upkeep mount! There's a full line of models, including three wagons. Basically, we've kept Chevy II's liveliness and roominess and easy loading ways. Kept its crisp looks, too (with a bit of freshening here and there). The changes we've made weren't for change's sake, you see—but for yours. Just for a sample: the brakes are self-adjusting. The new Delcotron generator gives you more electrical reserve power and helps your battery reach a vigorous old age. The Body by Fisher

beauty lasts longer, too; air pushes rain and wash water down through the rocker panels (where most rust begins!) in a clever new flush-and-dry system. The ride is smoother and quieter because of a large number of small improvements we've made. And things are a lot plusher inside. Now you've read this far, haven't you? Isn't that good evidence that Chevy II is made for you? The clincher will come when you take the wheel at your Chevrolet dealer's. The more people depend on

THE AMERICAN WAY

POLITICAL FOLLY

Read Daniel 6:10-23; John 14:8-14

You do not get what you want, because you do not pray for it. Or, if you do, your requests are not granted because you pray from wrong motives, to spend what you get on your pleasures. (James 4:2-3, Neb.)

We are all subject to temptations which surround us constantly. Yet no matter how many or how grave the temptations may be, it has been proved that through prayer we can overcome them. When Jesus says it is necessary to pray at all times and not to faint, He shows us that our need is constant and urgent.

But in order that our prayers may be effective, it is necessary that we examine ourselves to see if we are meeting the necessary conditions for our petitions to reach the

throne of grace. Some of these conditions are humility in God's presence, faith in Him, purity of motive, acceptance of His will.

When we pray to God as near right as we know how, He is answering us with His blessing at the very moment we are praying.

PRAYER: Our Father, we thank Thee for Thy loving care toward us. We praise Thy name for victory over sin through Jesus Christ Thy Son. Help us to remain in communion with Thee, always watching in prayer. In the name of Christ we ask these things. Amen.

Thought For The Day Late and early and at noon I will pray and cry out, and God will hear my voice.

DISABLED VETERANS' COMPENSATION INCREASE STARTS THIS MONTH

On or about October 31 some two million disabled veterans will start receiving checks for increased compensation amounting to \$98 million yearly, John S. Gleason, Jr., Administrator of Veterans Affairs, says.

Under terms of the new law signed by the President September 7, provision is made in the October payment for a special increase which amounts to a three-months retroactive sum. This applies to the October checks only.

VA Chief Gleason stressed there is no need for veterans to contact the Veterans Administration. The compensation checks received by veterans with service connected disabilities about October 31 will contain the first of the increases.

Designed to reflect changes in the cost of living since 1957, when the last compensation increase for veterans disabled in service went into effect, the average payment will be 3.4 percent more than the current rate.

Compensation for peacetime service connected disabilities is paid at approximately 80 percent of that for wartime service connected disabilities.

The increases are on a sliding scale so that the more seriously injured veterans are to receive the higher benefits. The increase for a veteran who is 10 percent disabled goes from \$19 to \$20 a month and the payment to a 100 percent disabled veteran is upped from \$225 a month to \$250.

In addition to payments based upon percentage of disability, additional "statutory" payments are made for specified disabilities or combinations of disabilities such as blindness, deafness, and loss of limbs.

The maximum amount that may be received by a wartime veteran who has no dependents, and who is so seriously disabled that he requires aid and attendance, has been increased under the new law from \$600

STATE POLICE LIST SAFE BIKE-RIDING RULES

If your youngster is a bike rider, make it a point to find out whether or not he follows these common-sense safety rules. If he refuses to follow these rules, take the bike away from him for a while—until he convinces you that he knows the rules and that he will obey them always. The State Police list these important safe-riding rules:

1. Ride with, not against traffic and keep to the far right of the road.
2. Don't carry passengers.
3. Never hitch onto a passing vehicle.
4. Don't weave or show off.
5. Carry books and packages in a carrier, not under your arm or on handlebars.
6. If it is absolutely necessary for you to ride at night, be sure that your bike is equipped with a good light in front and a clean reflector in the rear.

Be smart — ride your bike safely!

These are the sample increases:

1. Disability;	2. Old rate	3. New rate	4. Increase

GOULD ACADEMY

PARENTS' DAY 1962

Ten a. m. brought into play a series of girls' sports events. Two field hockey games—a J. V. one and a varsity—were played with Fryeburg Academy. Gould girls on the varsity team are: Judy Judkins, Sharon Benson, Sue Kneeland, Jane Allen, Martha Keniston, Judy Myers, Cindy Freeman, Kathy Towne, Norma Kimball, Verna Philbrook and Deedee Douglass. There are four substitutes—Mary Lee Ginn, Freda Bennett, Paula Blake, and Gloria Harrington. Fryeburg won the varsity game 4-2. Our goals were scored by Martha Keniston and Cindy Freeman. Gould won the J. V. game with a score of 2 to Fryeburg's 1. Players on the Academy team are: Ethel Kimball, Lorraine Eames, Charlene Swain, Nancy Fox, Lou Ann Brown, Jane Look, Mary Burris, Margaret Burris, Diana Harris, Linda Paine and Pat Daley. Substitutes in the game were Esther Harrington, Diana Delano and Chris Sanborn.

Three tennis matches were played with Fryeburg Academy and Gould won them 2-1. Gould's tennis team members are: Sandy White, Mary Barton, Linda Nickerson, Sarah Burgess, Susan Gould, Sue Barash, Chris Carswell and Jean Gillespie.

Fryeburg does not have an archery team, but Gould girls held a meet of their own, consisting of class competition. Shooting for the senior class were Joan Boardway and Darlene Morrill; for the sophomore class, Elsie Grover and Mary Steidl; and the freshman class was represented by Beverly Kelley, Laura Sawyer, and Kathy Brown. The junior class did not compete. Firing 24 arrows at 20 yards from the target, Darlene Morrill scored highest with 119 points; Elsie Grover with 108 was second, and 107 points gave Joan Boardway third place. Twelve arrows at a distance of 30 yards from the target gave Joan Boardway 48 points and first place, 39 points gave Darlene Morrill second place, and Mary Steidl took third place with 26 points. Twelve more arrows were fired by each archer from a distance of 40 yards and the following was the result: Joan Boardway, first place with 32 points; a second place tie came with Darlene Morrill and Laura Sawyer each shooting 21 points.

Final results: 20 yards—Seniors 226, Freshmen 186, Sophomores 185; 30 yards—Seniors 87, Sophomores 49, Freshmen 29; 40 yards—Seniors 53, Freshmen 28, Sophomores 18. Final: Seniors 366, Sophomores 252, Freshmen 243.

A chicken barbecue began at 11:30 for students, parents, trustees, faculty and guests. This was cooked, served and eaten down in the field house. Even though the sun was shining the wind defeated an outdoor picnic. A record 806 people were fed at the noon meal.

Gould had to take the short end of an exciting Parents' Day game as Mexico's Pintos

proved too strong for the Huskies, beating them 27-13.

Gould took the opening kickoff to the 33 yard line and marched to score first with Jim Corriveau going on a cutback 32 yards to score.

Mexico came right back with a 78 yard march and scored in 13 plays with Yanush barreling over from two yards out.

A Gould fumble set up the second Pinto score as the visitors went 44 yards in a sustained drive with Hebert scoring from the six yard line. Yanush rushed the extra point.

Gould, trying desperately to give a big Parents' Day crowd a victory, came right back with a 56 yard drive, with Jordan sweeping his own left end for a 22 yard touchdown run. McCrodden kicked the extra point.

The game was tied again, but not for long, as Dennis Provencher took the next kick off on the 20 yard line and raced 80 yards to score. This was the play that gave the Pintos the incentive to win, with the half ending 20-13.

Neither team scored in the third quarter. The visitors however, started another sustained march that saw them on the G. A. six yard line as the period ended.

On the first play of the final stanza, Gallant passed to Provencher for the final T. D. of the afternoon.

This Saturday the Huskies will be faced with equally tough opposition as Kennebunk will meet them on Alumni Field at 2:00 p. m.

Occasionally we see a man driving a car so carefully that you conclude it must be paid for.

"CHRIST is the ANSWER
to your FAMILY"

Jesus was welcome in many of the homes of His day. In Bethany, "Martha received Him into her house." Martha, her sister Mary, and brother Lazarus, found Christ to be not only a guest, but a Friend as well. He led them into new truth, transformed their home, and in the hour of sorrow He met their deepest need. Is He a Friend in your home? (Quotation from Luke 10:38)

The recent flooding of the Cold River in western Oxford County shows the need, use and value of the Small Watershed Project as sponsored by the Oxford County Soil Conservation District. Other sponsors of the project are, the Carroll County SC District and the Water Resources Board of New Hampshire and the towns of Fryeburg and Stow in Maine.

The flooding followed the fall of 6.37 inches of rain. Simon Charles of Stow made the recording between 2:00 p. m. Friday and 2:00 p. m. Sunday Oct. 7. Most of the Cold River Valley farm land was under water. The Cold River overflowed the black road going east from Stow.

The Little Cold River left the

main channel east of the bridge at Stow and scoured a large field operated by Harold Thurston Jr.

A large area was flooded north of the road between Fryeburg Harbor and North Fryeburg. Flooding in this area affected land owned and operated by John and Horace and Norman Gray, Alonzo Bennett, David Hill and John Emery.

The engineering survey for the proposed small watershed project in the Cold River and Old Course Saco is nearing completion. When the survey is completed, then it will be determined whether or not the benefits exceed the costs.

Besides flood prevention, the Small Watershed projects may be adapted to other uses. Some of these are fish and wildlife developments, town water sup-

Knowing the right answers to these questions will help you become a better driver and help make Maine's streets and highways the safest in the nation.

Question:

On the basis of miles driven, how does the fatal-accident rate for night driving compare with the fatal-accident rate for day driving? (a) It is less for driving. (b) It is about the same. (c) It is two to three times higher for night driving. (d) It is more than five times higher for daylight driving.

Answer (c)

The fatal-accident rate, on the basis of miles driven, is 2½ times higher at night than during the day. Inability to see well enough is a major contributing factor in the many serious accidents which occur after dark. Reduce the accident danger in your own driving in these ways: 1. Drive at a lower speed than in the daytime. 2. Drive at night only when rested. Fatigue impairs night vision and other vital factors of driving. 3. Know the range of your headlights and how well you can see at various distances. That is, be able to stop within the visibility range of your headlights. Never overdrive your headlights. 4. Avoid using dark or colored glasses at night. 5. When facing glare

from approaching headlights, reduce speed; avoid looking directly at the lights and keep speed reduced until your eyes recover from the effects of the lights. 6. Always depress your headlights when meeting other cars. This common courtesy improves lighting on the road directly ahead and to the right, where you then most need the light. A driver "blinded" by your high-beam headlights may sideswipe your car. 7. Depress your lights when following another driver. The glare caused by your lights shining in his rear-view mirror can reduce his vision and cause an accident. 8. Keep your car's battery, lights, and electrical system in good condition. 9. Avoid lighting matches or using bright lights in the car. Keep bright interior lights off. You want to keep your eyes dark-adapted. 10. Keep headlights properly adjusted. Then the depressed beams are not high enough to hit the oncoming driver's eyes. 11. Keep the windshield and all lights clean. 12. Avoid excessive smoking. 13. Allow for lessening efficiency of night vision as you get older.

CHILD STUDY CENTER

SO IMPORTANT

It is important to plan a study center for your school child? Here are some facts that may interest you, says Mrs. Ruth DeCoteau, H. D. A. of Oxford County. One in every 500 school children has defective eyesight.

The low wattage bulbs used in most homes cannot supply the amount of light needed for long periods of reading.

Few correctly designed lamps for study can be bought in stores.

Lack of desk space in most homes makes necessary the use of the dining table, a card table or the kitchen table as a study location — which often cannot be lighted satisfactorily. Lighting experts tell us it is vital that parents recognize the importance of a properly planned study center in the home if they want their children to do good school work.
